

Are you a good guesser?

The General says:—No man living can take three different kinds of Roofing and determine in advance by such tests as bending, twisting, tearing, or smelling, how long each will last on the roof. The best you can do is to make a guess. That is why

Certain-teed

Roofing

Is guaranteed by us 5, 10 or 15 years according to whether the thickness is 1, 2 or 3 ply. Most roofings look alike, and even trained chemists can judge roofing quality only by the raw materials that are put into the roofing and not from the finished product. The responsibility of the biggest Roofing and Building Paper Mills in the world stands behind our guarantee and this makes it unnecessary for you to take the risk of guessing. **Certain-teed** Roofing has made good on the roof throughout the entire world. Ask your local dealer for further information. He will quote you reasonable prices.
